COMPANY

**TRAINING**

**Electronics Testing & System Diagnostic  
(ETSD)**

This is a one-day, classroom style training for in-depth troubleshooting for Halcyon Inverter systems, multi-meters, DC controls and circuits with boards.

Students must bring a digital multi-meter with fresh batteries. *Multi-meter should be capable of specific component testing; this includes the diode check function and a 4 to 10 mega-ohm testing capability.*

**May 15, 2019**

**8am - 12pm**

**\*\$35 per person**

**ONLY 12 spots available**
